

INT-E

ZONE EXPANSION MODULE

The module is designed for use in conjunction with the control panels of **INTEGRA**, **INTEGRA Plus** and **VERSA** families. This device replaces the CA-64 E module. The **INT-E** offers expansion of the system by 8 wired zones as well as allows direct connection of roller shutter and vibration detectors. The additional tamper input facilitates detection of unauthorized opening of the enclosure in which the module is installed.

- system expansion with 8 zones
- NO, NC, EOL, 2EOL/NO, 2EOL/NC and 3EOL (for INTEGRA Plus alarm control panels) configuration support
- programmable EOL resistance value
- support for vibration and roller shutter detectors
- ability to connect to **RS-485** bus (firmware update via the bus)

TECHNICAL DATA

Supply voltage	12 V DC
Operating temperature range	-10 °C...+55 °C
Standby mode current consumption	35 mA
Max. current consumption	80 mA
Weight	47 g
Maximum humidity	93±3%
Dimensions	80 x 57 mm
Environmental class according to EN50130-5	II
+12 V output rating	2,5 A / 12 V DC
Security grade acc. to EN 50131 (without power supply)	Grade 3
Security grade acc. to EN 50131 (with APS-412 power supply)	Grade 2
