

DoorProtect Plus

Wireless opening detector notifies of first signs of intrusion into the room through the door or window. It is installed even on roof windows which can be left open when leaving the house.

Tech specs

Classification	Combined point magnetic contact and vibration radio channel security detector
Sensing element	Reed switch
Activation threshold	Small magnet — 1 cm Big magnet — 2 cm Tilt: more than 5°
Sensing element	Reed switch, accelerometer
Temperature sensor	Available
Battery life	Up to 5 years
External contact	Yes
Communication range with central unit	Up to 1,200 m in an open space

External contact is available for connecting third-party detectors

Operates up to 5 years without battery replacement

Registers change in vertical slope angle, bangs and vibration
